SUBJECT INDEX

Abstract algebra 27 (1989) 307
Abstract machines 27 (1989) 349
ADA 27 (1989) 221
Advanced workstations 27 (1989) 441
Algebraic transformation 27 (1989) 273
AND/OR trees 27 (1989) 391
Arithmetic codes 27 (1989) 697
Artificial intelligence 27 (1989) 69
Artificial intelligence system architectures 27 (1989) 25
ASICs 27 (1989) 101, 373, 473
Atomic actions 27 (1989) 521
Automated verification 27 (1989) 649
Automatic music recognition 27 (1989) 547
Automatic synthesis of systolic arrays 27 (1989) 479
Automatic test pattern generation 27 (1989) 675, 687

Bridging faults 27 (1989) 681

Callgraph analysis 27 (1989) 95
CAE tools 27 (1989) 583
CMOS fault behavior 27 (1989) 681
Coherent lightwave LANs 27 (1989) 489
Computer vision 27 (1989) 143, 147
Concurrency 27 (1989) 819
Concurrent error detection 27 (1989) 697
Concurrent systems 27 (1989) 417
Constraint logic programming 27 (1989) 649
Controllers 27 (1989) 53
Control flow 27 (1989) 627
Control part synthesis 27 (1989) 465

D-graphs 27 (1989) 527
Database models 27 (1989) 121
Database programming language 27 (1989) 19
Database semantics 27 (1989) 121
Data exchange formats 27 (1989) 687
Data flow analysis 27 (1989) 95
Data flow languages 27 (1989) 551
DBT transformation 27 (1989) 299
Dedicated architectures 27 (1989) 793
Demand driven control 27 (1989) 391
Denotational semantics 27 (1989) 607
Design maintenance 27 (1989) 63
Distributed applications 27 (1989) 327
Distributed languages 27 (1989) 199
Distributed operating systems 27 (1989) 811
Distributed programming 27 (1989) 455
Distributed real-time microprocessor systems 27 (1989) 665
Distributed systems 27 (1989) 221
Domain analysis 27 (1989) 639
DUNIX 27 (1989) 811
Dynamic load balancing 27 (1989) 423

Embedded systems 27 (1989) 239
Entity-relationship model 27 (1989) 113
Error minimization 27 (1989) 767
Ethernet IEEE 802.3 27 (1989) 757
Expert systems 27 (1989) 69, 757

Fault propagation 27 (1989) 799
Fault recovery 27 (1989) 801
Fault tolerance 27 (1989) 713
File-store architectures 27 (1989) 423
Formant synthesis 27 (1989) 557
Formal circuit description 27 (1989) 155
Formal verification 27 (1989) 171
Functional languages 27 (1989) 279
Functional programming 27 (1989) 593

GaAs architectures 27 (1989) 289
Graphical programming 27 (1989) 633
Graphical user interfaces 27 (1989) 455

Hardware automatic design 27 (1989) 367
Hardware correctness 27 (1989) 163
Hardware description language 27 (1989) 171, 267, 473
Hardware formal verification 27 (1989) 279
Hardware synthesis 27 (1989) 373
High level languages implementation 27 (1989) 307
High level synthesis 27 (1989) 465
Hypercube architectures 27 (1989) 501

Image processing 27 (1989) 147, 417
Image registration 27 (1989) 135
Incremental synthesis 27 (1989) 381
Industrial control 27 (1989) 705
Inter-process communications 27 (1989) 207, 215
Internetworking 27 (1989) 447

Knowledge based systems 27 (1989) 77

Local area networks 27 (1989) 447
Locking mechanisms 27 (1989) 431
Logical query languages 27 (1989) 127
Logic programming tools 27 (1989) 25

Machine automation 27 (1989) 723
Markovian models 27 (1989) 501
Massively parallel computers 27 (1989) 495
Man machine interface 27 (1989) 39
Memory hierarchies 27 (1989) 87
Microprocessor debugging 27 (1989) 619
Microprocessor simulation 27 (1989) 619
Microprogramming 27 (1989) 601
Motion 27 (1989) 53
Multiprocessing 27 (1989) 215, 251
Multiprocessor architectures 27 (1989) 147
Multiuser environments 27 (1989) 431
Multilevel Newton algorithm 27 (1989) 731
Multilevel simulation 27 (1989) 571
Music synthesis description 27 (1989) 551

Networks 27 (1989) 739
Neural networks 27 (1989) 189
Neural network description languages 27 (1989) 181
Neural network simulators 27 (1989) 181
Non invasive testing 27 (1989) 665

Object based systems 27 (1989) 713
Object modelling 27 (1989) 121
Object oriented databases 27 (1989) 31, 127
Object oriented modelling 27 (1989) 113
Object oriented programming languages 27 (1989) 31, 327
Object oriented systems 27 (1989) 19, 339
Object recognition 27 (1989) 39
Occam language 27 (1989) 405
Office networks 27 (1989) 441
Operating systems 27 (1989) 533
OPS5 language 27 (1989) 397

Parallelism 27 (1989) 207
Parallel processing 27 (1989) 397, 723
Parallel workstations 27 (1989) 731
Periodic maintenance 27 (1989) 657
Petri nets 27 (1989) 607
Phase coupling 27 (1989) 381
Photonic switching 27 (1989) 489
Picture generation 27 (1989) 627
PID controllers 27 (1989) 793
PLCs 27 (1989) 583
Preemption 27 (1989) 775
Process automation 27 (1989) 633
Programming environments 27 (1989) 31
Prolog language 27 (1989) 163

Rapid prototyping 27 (1989) 199
Real-time filters 27 (1989) 245
Real-time programs 27 (1989) 527
Real-time scheduling 27 (1989) 767, 775
Real-time UNIX 27 (1989) 533
Register transfer level 27 (1989) 367
Relational algebra 27 (1989) 19
Reliability analysis 27 (1989) 233
Resonator structures 27 (1989) 557
Reusability 27 (1989) 639
RISC architectures 27 (1989) 87
RISC processors 27 (1989) 101
Routing 27 (1989) 749
Rule-based systems 27 (1989) 749

Scheduling 27 (1989) 251
SCHEME Lisp dialect 27 (1989) 355
Sea-of-gates 27 (1989) 785
Semi-custom arrays 27 (1989) 565
Semi-custom VLSI 27 (1989) 69, 785
Service request models 27 (1989) 333
Signature monitoring 27 (1989) 705
Silicon compilers 27 (1989) 381
Single chip microcomputer applications 27 (1989) 579
Smalltalk language 27 (1989) 333
Software/hardware partitioning 27 (1989) 239
Software fault tolerance 27 (1989) 521
Spacecraft computers 27 (1989) 233
Speech synthesis 27 (1989) 363
Standard cells 27 (1989) 355
Static allocators 27 (1989) 315
Synchronization 27 (1989) 819
Synchronous data flow 27 (1989) 315
System level diagnosis 27 (1989) 799
System level simulation 27 (1989) 189
Systolic arrays 27 (1989) 299

Temporal logic	27	(1989)	541
Test development	27	(1989)	675
Time warp synchronization	27	(1989)	571
Transformational design	27	(1989)	261
Transient fault tolerance	27	(1989)	801
Transputers	27	(1989)	739
Transputer architecture	27	(1989)	339
Transputer implementations	27	(1989)	143
Transputer networks	27	(1989)	405
Vertical migration architectures	27	(1989)	289
Virtual machine implementations	27	(1989)	593
VLSI design	27	(1989)	77
VLSI design methodologies	27	(1989)	273
VLSI guided synthesis	27	(1989)	261
VLSI systems	27	(1989)	495
32-bit microprocessors	27	(1989)	349
